# PROGNEST

PROGRESSIVE DIE NESTING SOFTWARE

Optimizes blank layouts for best material utilization in standard 1-up, 2-up, and mirrored progressive die arrangements

Quickly and accurately estimates the progression and coil width requirements

Provides optimized nesting layout for all possible processing layouts

Accurately determines material costs per blank for quoting and estimating

PROGNEST optimizes progressive die nesting layout to improve material utilization and calculate costs

PROGNEST ENSURE OPTIMAL PROGRESSIVE DIE MATERIAL UTILIZATION THROUGH NESTING OF BLANK SHAPES
